

MIGUN— beauty & health newsflash

Migun sponsors US Speedskating Team

Inside this issue:

<i>Migun and the Olympics</i>	1
<i>Greenville's Best & Brightest</i>	2
<i>Coesam Cream for the Skin</i>	2
<i>Migun & Type 2 Diabetes</i>	2-3
<i>10 Years of Migun in the USA</i>	3
<i>Mini-mat DUO</i>	3
<i>Events & Classes</i>	3

We all cheered as Michael Phelps made Olympic history just a few weeks ago. For 2008, the Olympics are over. However, training is just beginning for the athletes of the 2010 Winter Olympic Games in Vancouver. As the US Speedskating team trains for GOLD, they are already using Migun Ther-massage Beds and Migun Mini-mats to help them every day!

Migun USA donated beds and mini-mats to

the US Speedskating team to help them achieve Olympic dreams. Migun USA trusts that this donation shows continued commitment to health and faith in our products' ability to help improve overall performance and well-being.

Representatives from Migun USA met with the team recently, and everyone just loves the Migun bed and the Mini-mats, too!

Far Infrared helps with muscle recovery for ALL athletes

We are excited to share in this opportunity for the US Speedskating team to bring home the gold and share a bit of Olympic history!

- Massage your feet
- Abdominal massage helps with digestive and reproductive issues
- Migun anytime—day or night

Greenville's Best & Brightest

Each year, Greenville Magazine honors 25 Upstate citizens that are making a difference in our community for their 'Best and Brightest under 35' program. Migun of Greenville is proud to be a part of the program this year as our very own Vicy Wilkinson was selected as one of Greenville's Best & Brightest!

You can read all about Vicy and 24 other outstanding young people in the August 2008 edition of Greenville Magazine. Vicy works with several non-profit groups in our area and holds leadership roles in three of them. She teaches for Furman University's OLLI (Osher Lifelong Learning Institute) as well as their Lifelong Learning pro-

gram. Vicy's basic belief is that everyone has the right and responsibility to be healthy and active members of society.

Vicy knows that encouraging the daily use of Migun—either at home or in our center—will further the cause of health & wellness in our community. The bottom line is that Migun can make you feel better!

Coesam Cream: Prevent Aging, Feel Great!

Migun offers Coesam Cream to help troubled skin.

Coesam Carconat Cream is made with three key ingredients: CoQ10 enzymes, certified organic rosehip oil, and snail secretions. Combined, these elements offer powerful anti-aging anti-inflammatory properties that can help alleviate a variety of skin damage.

Since we introduced Coesam in the spring, we have received rave reviews from our clients. “I’ve tried all the creams out there—even

those really expensive ones, and this stuff is **THE BEST,”** says Fran, one of the first Coesam customers here in Greenville.

Coesam alleviates redness and discoloration, smoothes lines and wrinkles, and nourishes dry skin. The powerful enzymes found in the secretions of snails help rebuild damaged skin and also decrease redness caused by inflammation in the skin.

Because we believe that you will want to use Coesam every day, Migun of Greenville is offering a great deal to our Coesam customers. Every 4th purchase of Coesam will be 50% off! (And don’t worry, you don’t have to buy 4 bottles at once; we track purchases for you, and on your 4th, you will receive a 50% discount!) Coesam Cream is available for \$64.95 per bottle and makes a great gift!

Migun & Type 2 Diabetes

The World Health Organization (WHO) estimates that 177 MILLION people worldwide suffer from Type 2 diabetes. Type 2 diabetes oftentimes occurs when the cells of the body ignore the insulin produced by the pancreas, and blood glucose (sugar) levels soar. Over time, this disease causes a

system-wide breakdown of the body’s blood vessels and results in cardiovascular disease, poor circulation (particularly in the extremities) and eventually leads to such things as blindness and digit/limb amputation. Left untreated, type 2 diabetes is a killer. So, how can Migun help?

Migun stimulates circulation throughout the body, which is critical for diabetics. Migun also stimulates cellular metabolism, which in turn can help the body to repair damaged cells and tissue more easily. These two aspects combined are great news for diabetics.

Skin Five Hand Rejuvenator helps relieve pain from arthritis & carpal tunnel. Also helps skin!

Taking a Stand Against Diabetes

When it comes to taking a stand against the effects of diabetes, there is no better solution than making diet and lifestyle changes. Because diabetics have difficulty processing sugar and other simple carbohydrates, limiting sugar and carbohydrate intake is key to keep-

ing blood sugar under control. Diabetics should focus on increasing the level of anti-oxidant rich foods, like vegetables and whole (unprocessed) grains. Proteins are also important in making sure the body is properly digesting foods and building muscle and bone

mass. And when it comes to making significant lifestyle changes, daily exercise and daily use of the Migun Ther-massage Bed System can have a huge impact! Migun can help with both increasing the body’s insulin sensitivity and weight reduction. (Studies show that daily

Migun offers Help for Diabetics (continued)

Migun use can help regulate blood glucose levels for Type 2 diabetics.)

Another way Migun can help is through the consistent use of a Migun Mini-mat or Healthy Mat. Along with the circulatory boosts from using Far Infrared, the Migun mats give the body an added bonus of loads of negative ions! Negative ions have enormous anti-oxidizing effects in the

body, including oxygenating the blood and therefore surrounding tissues and making the body a more alkalinized environment, which is key to disease prevention.

Studies have shown that the more oxygen-rich your blood, the longer your body lasts because it's more able to fight the aging process. Oxygen rich blood is one of the fundamental keys to a healthy life!

With consistent use, the Migun thermal massage bed system combined with Migun mats can help significantly with the effects of Type 2 diabetes in the human body. Migun is an investment in your future and your family and offers a relaxing way to help combat type 2 diabetes.

Migun means beauty & health. Helping you feel better is our business!

10th Anniversary CONGRATULATIONS!

During the month of August, Migun USA celebrated its 10th anniversary. For a decade now, Migun USA has brought beauty and health into the lives of millions of Americans who have learned the value of investing in their own health, relaxation and general well-being.

To celebrate this achievement, Migun USA sponsored a gas card giveaway to everyone who purchased a Migun bed in the month of August. Migun of Greenville is excited to have been a part of this celebration and we're even more excited that one of our bed owners was a lucky winner!

After a lot of hard work, Rhonda Smith purchased her own Migun in August and we've just found out she won the \$500 gas card! We are all excited for Rhonda and we know she is loving having a Migun at home. Thanks to all our customers for your trust and love of our product and our store!
