REWARDS

SkinFive Hand Rejuvenator—The Whole Scoop!

MIGUN of Greenville is excited about our newest product because it's first few weeks in our store is getting rave reviews from users! It's called the SkinFive Hand Rejuvenator and we're learning that it rejuvenates more than just your hands.

By combining Far Infrared heat therapy with reflexology principles and the emission of negative ions, the SkinFive is helping people with arthritis, carpal tunnel syndrome (and the its achy predecessors), tension and pain in the arms and shoulders, faster wound healing, and many other things! A lady who is new to Migun came into our store with a huge bruise on her hand that was being very stubborn and slow in healing. During her very first 20-minute session with the SkinFive, the bruise started to fade. After three times, you have to squint to see what's left of the bruise that had been so prominent just days before!

Another user who spends 8—12 hours a day using a computer reports that her hands and arms no longer hurt whenever she is able to use the SkinFive, and she plans to purchase one with her bonus from working such long hours!

So how does it work? As you place your hands into the SkinFive, the first thing you'll notice is that the stone on which they rest is a little bumpy. Those bumps are important because they are designed to follow your hands reflexol-

Janie gets her hands MIGUN-ized in the new SkinFive!

ogy points in order to stimulate all the major organs in your body. Your hands are a miniature of your body, so stimulating your hands encourages a healing response from your whole body!

Then you'll notice that the stone is nice and warm, especially whenever someone has just finished using the SkinFive before you. That warmth that you feel is far infrared (FiR), which you're already learning about by using the Migun bed either in our store or in your home or office. The SkinFive introduces the FiR directly into your hands to increase circulation and help your cells shed harmful toxins and debris that your body accumulates from the food you eat, the air you breathe, the water you drink and bathe in, and exposure to a variety of chemicals in everyday items like cleaning supplies.

OF WATER after using
the MIGUN bed.
Hydration is critical after
a massage!

OUCH! THE MIGUN BED HURT MY TAILBONE!

Did you say that to yourself after the jade probes made their first few passes under your lower back? Or on your way out of our center after your first treatment on the MIGUN bed? How about when you woke up the next morning?

After using MIGUN, did your tailbone area feel tender, inflamed, even bruised? If so, what you were experiencing was most likely a HEALING REACTION. A healing or improvement reaction is different from an injury. In fact, it is the opposite of an injury. Your body is actually trying to heal your lower back with the help of MIGUN.

SO, WHY DOES IT HURT? Most of us have problems with our lower backs, even if we don't know about the problems specifically. Some problems are obvious: herniated discs, fused vertebrae, curvature of the spine, misalignment of the spine, chronically tight muscles, spinal stenosis, arthritis, sciatica, etc. MIGUN of Greenville has seen it all.

Other conditions are less obvious but more common. The most common problem related to the lower back is calcification of the connective tissue along the spine. Healthy connective tissue is a lot like Saran Wrap: soft, pliable, smooth, yet strong. As we age, however, the connective tissue tends to harden up like cement, especially in the lower back. This can cause a whole host of health problems, so one of the best things you can do for your health is to soften up the connective tissue in your back. But, have you ever gotten a massage aimed at trying to break that stuff up? No.

As you age, your connective tissue loses some of its youthful flexibility— due to wear and tear, stress, less than perfect diet, injuries, etc.

MIGUN HAS GOOD NEWS!

Your tailbone will not always be sore after a treatment on the MIGUN bed. Calcification of the connective tissue can be reversed, and the MIGUN jade probes are uniquely suited for the task. The probes act like tiny gentle jackhammers in your lumbar and sacral area – very effective. First, the probes saturate your lower back with deeply penetrating far-infrared heat which dramatically increases blood flow, oxygen flow, and energy flow to the area. Then, the probes aggressively massage the connective tissue until the calcified material is broken down and flushed out of the body. This process usually takes about two weeks of daily MIGUN sessions. REMEMBER: Your problems did not appear overnight. Be patient and have faith in the process of healing. Come often to see what the MIGUN bed can do for you!

SkinFive—The Whole Scoop (*cont'd*)

Far Infrared (FiR) also works to expand your blood vessels and capillaries so that your circulatory system can keep up with daily stressors like cholesterol intake and spending a lot of time sitting at your desk at work. Some users report that using the SkinFive helps to release tension carried in the neck and shoulders along with safely and gently removing dead skin and hard calluses from the hands at the same time!
It's truly REJUVENATING!

Visit www.migunworld.com to find a center near your out-of-town friends!

The SkinFive also emits a huge concentration of negative ions which help support your immune and respiratory systems while also helping to create a more alkaline environment in your body to ward off disease. Negative ions are known as the vitamins of the air, and spending a few minutes exposed to high concentrations of them can elevate mood, decrease stress, and increase attention and stamina. So next time you're waiting for a bed, try the SkinFive and find out what it can do for you!

GET MIGUNIZED EVERY DAY!

SPOTLIGHT: REFERRAL REWARDS for BED OWNERS!

Now MIGUN of Greenville is offering every bed owner a way to EARN CASH BACK on your Migun bed purchase! We are proud to have the happiest customers in Greenville, and we've decided to reward you for helping us introduce the Upstate to our fantastic health enhancement products! How does it work?

Buy your bed today and start using it! We know you will enjoy using your bed every day, and when you start feeling great all the time, you just can't help but tell people why. So, invite your friends over to try out

your new secret to health and wellness success! Once they're ready to talk to us about buying a bed, send them to MIGUN of Greenville for orientation. When your friends and family buy their bed (for home or office) within 14 days (two weeks) of their orientation, MIGUN of Greenville will SEND YOU A CHECK for 10% of your purchase price!

There is no limit to this bonus program—so if ten of your friends buy a bed in the next year or two, you will have earned 100% of your money back!

If your friends can't decide quite that fast, you will still receive a \$50 cash bonus for everyone you send who purchases a bed after the two-week bonus window has expired.

We believe in our product and we know that you do, too! Make it count for you by encouraging your friends to get a bed at home and get started living a healthier, more balanced life. We appreciate all our patrons and customers, and we believe we can all work together to keep the Upstate healthy!
