Welcome to the MIGUN of Greenville Family!

MARVELOUS MIGUN

*MIGUN beds use **JADE STONES** and **FAR INFRARED HEAT** to help heal your body—naturally!

*Mini-mats and Healthy Mats use **FAR INFRARED HEAT**, **NEGATIVE IONS**, and technology that **NEUTRALIZES HARMFUL EMF/EMI WAVES** to keep your body healthy!

—Why does **JADE STONE** heal? **JADE** is a natural stone believed to have healing properties by many Asian as well as Native American cultures. Crystal healers associate Jade with ailments of the immune system, thymus, heart, kidney and nervous system. According to followers of the New Age, jade encourages practicality, wisdom, mental peace and tolerance of others. They also believe it can rejuvenate the body during periods of stress, reduce fears, banish negative thoughts and increase a person's capacity for giving and receiving love. Jade makes a good worry stone and is often used in rosaries. Jade also magnifies Far Infrared rays, so MIGUN is more intense than other massage beds.

PRICE LIST January 2007

HY 7000 UM	\$3695+ tax & delivery
HY 7000 U	\$3095 + tax & delivery

Ionic Comfort Rug (Med./Queen)	\$349 + tax

Sonorous Snores echo a MIGUN chorus! Ed, Stan, and Jim enjoy a mid-day snooze on the upgrade beds.

—What is **FAR INFRARED (FIR)**? FIR is a natural part of the light spectrum produced by our sun. FIR speeds up the healing process inside our body by stimulating micro-vibrations in our cells. This stimulation increases circulation in the human body by dilating the blood vessels. In turn, the circulation increase leads to more efficient processing of nutrients and oxygen for the body's cells and tissues. The result: pain relief and relief from chronic inflammation... and a healthier, happier you!

—continued on p. 3

Mini-mat—Travel sized!	\$345 + tax
Pillow—Memory foam	\$89 + tax

OUCH! THE MIGUN BED HURT MY TAILBONE!

Did you say that to yourself after the jade probes made their first few passes under your lower back? Or on your way out of our center after your first treatment on the MIGUN bed? How about when you woke up the next morning?

After using the MIGUN bed, did your tailbone area feel tender, inflamed, even bruised? If so, what you were experiencing was most likely a HEALING REACTION. A healing or improvement reaction is different from an injury. In fact, it is the opposite of an injury. Your body is actually trying to heal your lower back with the help of the MIGUN bed.

SO, WHY DOES IT HURT? Most of us have problems with our lower backs, even if we don't know about the problems specifically. Some problems are obvious: herniated discs, fused vertebrae, curvature of the spine, misalignment of the spine, chronically tight muscles, spinal stenosis, arthritis, sciatica, etc. MIGUN of Greenville has seen it all.

Team MIGUN is (from left) Connie, Ashleigh, Lucy, Barbara and Vicy. Welcome to our family!

CALCIFICATION OF THE CONNECTIVE TISSUE:

Other conditions are less obvious but more common. The most common problem related to the lower back is calcification of the connective tissue along the spine. Healthy connective tissue is a lot like Saran Wrap: soft, pliable, smooth, yet strong. As we age, however, the connective tissue tends to harden up like cement, especially in the lower back. This can cause a whole host of health problems. In fact, one of

the best things you can do for your health is to soften up the connective tissue in your lower back. But, have you ever gotten a massage aimed at trying to break that stuff up? No.

As you age, your connective loses some of its youthful flexibility— due to wear and tear, stress, less than perfect diet, injuries, etc.

MIGUN HAS GOOD NEWS!

Your tailbone will not always be sore after a treatment on the MIGUN bed. Calcification of the connective tissue can be reversed, and the MIGUN jade probes are uniquely suited for the task. The probes act like tiny jackhammers in your lumbar and sacral area – fairly gentle, but nonetheless effective jackhammers. First, the probes saturate your lower back with deeply penetrating far-infrared heat which dramatically increases blood flow (and,

therefore, oxygen flow) as well as energy flow to the area. Then, the probes aggressively massage the connective tissue until the calcified material is broken down and flushed out of the body. This process usually takes about two weeks of daily MIGUN sessions. **REMEMBER:** Your problems did not appear overnight. Be patient and have faith in the process of healing. Come often to see what the MIGUN bed can do for you!

MIGUN WILL BE CLOSED ON SATURDAY AND MONDAY , JANUARY 13TH AND 15TH FOR AN EMPLOYEE RE-TREAT

CLOSED 1/13 AND 1/15

THANK YOU FOR VISITING!

MARVELOUS MIGUN (*cont'd*)

—User reports show that **FIR** helps **relieve pain** associated with Arthritis, Rheumatism, Carpal Tunnel Syndrome, Knee pain, Back pain, Numbness of the extremities, Sports injuries, Tennis elbow, Varicose veins, Leg cramps, Menstrual cramps.

—**FIR** also helps diminish **SCAR TISSUE** and speeds the wound healing process.

—User reports also show that as **FIR** increases circulation, it relieves **ERECTILE DYSFUNCTION**.

—**NEGATIVE IONS?** Negative ions are negatively charged molecules of air that we inhale in abundance in certain natural environments such as atop mountains, underneath waterfalls, and breathing in the salt air at the beach. Concentrations of these healthy molecules decrease as we move towards cities and indoors. Once negative ions reach the human bloodstream, they produce biochemical reactions that increase serotonin levels, the body's natural mood elevating chemical that helps alleviate depression, relieve stress, and boost daytime energy levels!

Three Generations Enjoy the MIGUN Healthy Mat.

Get ENERGIZED! Get REVITALIZED! Get MIGUNIZED!

—Research shows that a negative ion count of over 400 (per cubic cm of air) is healthy. **MIGUN mats and the new Ionic Comfort Rug produce 800-1200 negative ions!**

—Hospitals in the UK use negative ions to help keep rates of post-surgical infections down in their ICU and CCU care units.

—Research shows that negative ions boost the immune system and the respiratory system. Keep your body healthy and strong during this cold and flu season!

Providing a combination of health modalities and healing therapies, MIGUN Thermal Massage Beds and MIGUN mats help keep your body as fit as you want it to be! Use MIGUN EVERY DAY for best results.

“Helps alleviate depression, relieve stress, and boost daytime energy levels!”

SPOTLIGHT: MIGUN Ionic Comfort Rug

The NEW MIGUN Ionic Comfort Rug uses a high concentration of negative ions to bring your body back to an alkaline pH (potential hydrogen) state.

Why is it better to have an alkaline pH (versus an acidic pH)? Disease lives in acidic environments. Therefore, maintaining a healthy alkaline state for the body is important to maintaining a disease free body. An acidic body is less able to absorb minerals and other nutrients, and it's

also less able to detoxify heavy metals and repair damaged cells.

The Ionic Comfort Rug also protects you from harmful electromagnetic waves by blocking EMF. Electromagnetic interference is a key factor in many sleep disorders. Beyond that, this rug can be heated to 158°F to help increase your blood circulation and prevent ticks and mites from nesting by lowering the humidity in your home.

Our new rug is perfect for people with atrophic dermatitis, rhinitis, and respiratory problems. The rug is washable, and non-slippery. It can be used as a heating mat, and comes in sizes equivalent to Queen and King size. Ask a MIGUN of Greenville Staff Member for more information today!
