

MIGUN of Greenville

NEWSFLASH

April 2007

Welcome to the MIGUN of Greenville Family!

Negative Ions Promote Respiratory Health

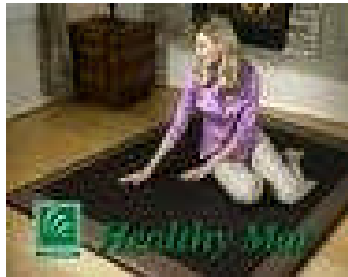

Ions are charged particles-either positive or negative-found in the air. These ions are created naturally. For example, the action of ocean waves on a beach creates a large number of negatively charged ions, which may be why many people feel better at the seashore. Conversely, exposure to electrical equipment and other sources of positively charged ions is reported to cause poor health in many people.

Here at Migun of Greenville, our air is FULL of negative ions! Migun mats and jewelry create the same effects on the air as do the waves of the ocean and the breeze through the trees moving up the sides of mountains. Using a Migun mat (either the Mini-mat or the Healthy Mat) at home may help improve your home's air quality significantly.

Positively charged ions, according to present knowledge, are detrimental to human health. The unfavorable interactions between humans and positive ions have occurred for millions of years. Folk knowledge has attributed evil effects to certain seasonal winds, which scientists now understand to be highly charged with positive ions.

PRICE LIST APRIL 2007

| | |
|--------------------------------|-------------------------|
| HY 7000 UM | \$3695+ tax & delivery |
| HY 7000 U | \$3095 + tax & delivery |
| Healthy Mat-Full | \$1199 + tax |
| Healthy Mat- Queen | \$1499 + tax |
| Ionic Comfort Rug (Large/King) | \$499 + tax |
| Ionic Comfort Rug (Med./Queen) | \$349 + tax |

Migun's mats provides a healthy dose of NEGATIVE IONS—even when it's not turned on! Take home clean air and a healthy smile today.

Ionized air may play a role in allergies, which is of particular importance here in Greenville this time of year. Research suggests that some allergy-provoking substances, such as dust and pollen, have a positive electrical charge. Negative ions appear to counteract the allergenic effects of these positively charged ions on respiratory tissues. Negative ions also have other beneficial effects for the respiratory system.

Doctors have reported that negative ion treatments in patients with allergies generally lead to favorable effects, and many individuals experience relief from their respiratory allergies. Other allergy sufferers report considerable relief with a few allergy reactions resolving completely after negative ion therapy. *-continued on page 3*

| | |
|----------------------------------|-------------|
| Mini-mat—Travel sized! | \$345 + tax |
| Negative Ion Bracelets (regular) | \$20 + tax |

Handmade Negative Ion Jewelry is also available. Please see our in-store collection for prices. Special orders are available!

Use FLEX SPENDING

ALWAYS remember to bring either towels or a sheet for sanitary purposes!

ALWAYS DRINK A LOT OF WATER after using the MIGUN bed. Hydration is critical after a massage!

OUCH! THE MIGUN BED HURT MY TAILBONE!

Did you say that to yourself after the jade probes made their first few passes under your lower back? Or on your way out of our center after your first treatment on the MIGUN bed? How about when you woke up the next morning?

After using the MIGUN bed, did your tailbone area feel tender, inflamed, even bruised? If so, what you were experiencing was most likely a **HEALING REACTION**. A healing or improvement reaction is different from an injury. In fact, it is the opposite of an injury. Your body is

actually trying to heal your lower back with the help of the MIGUN bed.

SO, WHY DOES IT HURT? Most of us have problems with our lower backs, even if we don't know about the problems specifically. Some problems are obvious: herniated discs, fused vertebrae, curvature of the spine, misalignment of the spine, chronically tight muscles, spinal stenosis, arthritis, sciatica, etc. MIGUN of Greenville has seen it all.

THANK YOU CONNIE!

We miss you already.

TEAM MIGUN

CALCIFICATION OF THE CONNECTIVE TISSUE:

Other conditions are less obvious but more common. The most common problem related to the lower back is calcification of the connective tissue along the spine. Healthy connective tissue is a lot like Saran Wrap: soft, pliable, smooth, yet strong. As we age, however, the connective tissue tends to harden up like cement, especially in the lower back. This can cause a whole host of health problems.

In fact, one of the best things you can do for your health is to soften up the connective tissue in your lower back. But, have you ever gotten a massage aimed at trying to break that stuff up? No.

As you age, your connective tissue loses some of its youthful flexibility—due to wear and tear, stress, less than perfect diet, injuries, etc.

MIGUN HAS GOOD NEWS!

Your tailbone will not always be sore after a treatment on the MIGUN bed. Calcification of the connective tissue can be reversed, and the MIGUN jade probes are uniquely suited for the task. The probes act like tiny jackhammers in your lumbar and sacral area – fairly gentle, but nonetheless effective jackhammers. First, the probes saturate your lower back with deeply penetrating far-infrared heat which dramatically increases blood flow (and, therefore, oxygen flow) as

well as energy flow to the area. Then, the probes aggressively massage the connective tissue until the calcified material is broken down and flushed out of the body. This process usually takes about two weeks of daily MIGUN sessions. **REMEMBER:** Your problems did not appear overnight. Be patient and have faith in the process of healing. Come often to see what the MIGUN bed can do for you!

**CLOSED FOR
EASTER
Friday—Monday
April 6-9, 2007
See you TUESDAY!**

NEGATIVE IONS PROMOTE RESPIRATORY HEALTH (CONT'D)

According to Dr. Jonathan Wright, M.D., the majority of allergy sufferers can reduce reliance on other treatments (nutritional, biochemical, or prescription) during negative ion therapy.

Ionized air has been used to help treat the following conditions: allergic bronchitis, allergic sinusitis, asthma, Chronic Obstructive Pulmonary Disease (COPD), and chronic respiratory tract allergies. Migun of Greenville has its own collection of anecdotal evidence to support the idea that negative ions promote respiratory health. For instance, Vicy (Co-Owner) had to take two Zyrtec EVERY DAY during spring and fall pollen season, but since she started using Migun (mats and beds), she has not taken a single allergy pill since March 3, 2006. Connie (retired PA) breathes a lot easier when she's at work at Migun, and comments that she can really feel a difference between our air here and the air in her own home. Countless other Migun users report similar health improvements from their efforts to

GET MIGUNIZED!

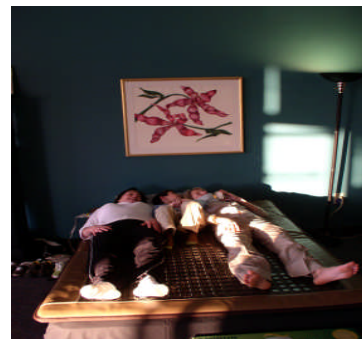

Beyond their support of respiratory health, other evidence suggests that negative ions are also helpful in reducing stress and creating a more positive feeling of well-being. Reducing stress is another key to having a healthy body because stress directly affects (and NOT in a good way) the immune system. Decreasing stress levels **INCREASES** your immune system function.

It's important for your health to take time out of each day to breathe in the air—as long as it's negatively charged! ☺

SPOTLIGHT: MIGUN HY7000 U (classic MIGUN)

The Migun HY 7000 U is the classic Migun-bed. Once upon a time, it was unheard of that almost every home in the United States would have a personal computer, but now it's rare to run across a home without one. The Migun bed is the NEXT computer!

Classic Migun has seven (7) different programs, AND a foot massage program to help achieve and maintain beautiful

health. Home users report reduction in chronic pain, increased immune function, decreased stress and anxiety, lower blood pressure, increased circulation... and so much more!

The classic model comes with both the 2-jade and 15-jade external units to increase its function. When Migun of Greenville sets your bed up at home, we teach you everything you need to know to work on those tired feet; treat special 'trouble spots' with care; and finally use that P6 massage

program to help with digestive and reproductive issues.

Although the motor is not quite as strong as in the upgrade bed, classic Migun provides a deep tissue massage with Far Infrared Heat that addresses about 200 of your body's 365 acupressure points.

Take home a classic today and be the first one in your neighborhood to own **BEAUTIFUL HEALTH!**
